phone 1410. Geo. G. Guild Gen. Mgr.FORAKER IS
DOWNED AGAIN

CLEVELAND, Ohio, October 27.—Former Senator Foraker has quarreled with the Republican executive committee conducting the Ohio campaign and has withdrawn from further participation. The trouble arose over the bitter attacks the former senator has been making on the New Nationalism policy promulgated by former President Roosevelt. In his stumping of the State, Foraker has been denouncing Roosevelt, although supporting the state Republican ticket.

His anti-Roosevelt speeches were found to be attracting more attention than his Republicanism, and he was yesterday asked by the executive committee to modify his addresses so as to eliminate his attacks on Roosevelt. Foraker promptly refused to modify his course in any way and announced that if his actions failed to please, he would withdraw from the fight altogether.

It was definitely announced last night that he had withdrawn.

PRESIDENT'S NEPHEW
ACCUSED OF MURDER

CEIBA, Mexico, October 27.—Antonio Davila, a nephew of President Diaz, was arrested here on Tuesday last and charged with murder. It is stated by the authorities that Davila is responsible for the recent death from violence of Jose Ballesteros, the director of the Ceiba police force.

MARK TWAIN ESTATE
OVER HALF-MILLION

REDDING, Connecticut, October 27.—An inventory of the estate of the late Samuel Clemens has been made, showing that the distinguished author died possessed of holdings worth \$611,136.

HALF-MILLION FIRE
IN B. C. CAPITAL

VICTORIA, British Columbia, October 27.—A severe fire occurred last night in the business section of this city. The fire got beyond the control of the firemen and swept through two principal blocks. The damage is estimated to have been over half a million dollars.

LOST BALLOON IS
RECORD BREAKER

CHICOUTIMI, Quebec, October 27.—Alan Hawley and Augustus Post, the aeronauts, who with their balloon America have been lost for the past nine days, are safe, having landed in the wilderness north of here, fifty miles from the nearest settlement. Not only are they safe, but they have established a world's record for long distance ballooning and endurance. They will arrive at Quebec today.

The distance traveled by them in the America is thirteen hundred and fifty miles, which is two hundred and fifty-seven miles farther than the former world's record, established in 1900 by Count de la Vaulx and Comte de Sainte Victor, who traveled from Vincennes, France, to Korostychev, Russia, a distance of eleven hundred and ninety-three miles. Their record beats that of the balloon Dusseldorf, the German entry, by one hundred and twenty-three miles.

The daring aeronauts have won the world's record, the Gordon-Bennett Cup offered as the grand prize of the Aero Meet, and one thousand dollars in cash prizes.

EXPRESS DRIVERS'
STRIKE GROWING

JERSEY CITY, October 27.—The drivers and helpers of the Wells Fargo Express Company went out on strike yesterday in sympathy with the striking employees of the United States Express Company. Street disorders between the police, strikebreakers and the strikers are frequent.

HOW SHE EARNED IT.

"Cultivate a little more sunshine in your disposition, my dear," said Mr. Dubbley. "Happiness and fitness in life depend upon the quantity of rays one emits."

"Very well, John," replied Mrs. Dubbley. "I'll do my best, but I think I'd be happier and more successful in the bargain if you would emit a ten-dollar raise in my allowance."—Harper's Weekly.

Australia Racing Booming.

NEW YORK, October 8.—Racing in Australia, thanks to the liberal laws in that country, promises to flourish within the next few years, especially as great interest has been taken in the development of the thoroughbred of late. Writing about the situation in that country, Gordon Inglis, an English authority, says:

"If the Australian commonwealth makes as great and well-sustained progress in rational development as its race clubs and breeders of the thoroughbred have done in their individual spheres, then the federation is due for a prosperous future."

SOCIETIES MAY
BE COMBINEDKILOHANA ART LEAGUE'S RETIR-
ING PRESIDENT PROPOSES PLAN
OF AMALGAMATION.

At last night's annual meeting of the Kilohana Art League, D. Howard Hitchcock, the retiring president, made an address in which he suggested the amalgamation of the league with other local social, literary, art or dramatic societies.

"Our annual income," said Mr. Hitchcock, "from dues alone is not sufficient to cover the actual running expenses of the league, and unless something definite can be done in a business way the art league can not go on. This is the purely financial viewpoint."

"That for which the art league stood in the past when it, alone almost, in its field was the public's voice for an organized society of all the fine arts, has been in part taken up, perhaps more fully, by other and more recent organizations."

"I might cite the College Club, Morning Musical Club, work now being carried on in the College of Hawaii, etc., etc."

"So that, viewed from the original standpoint from which we started, the art league has largely outlived its usefulness in many of the fields from which it gained much of its strength."

"Hence we deduce two very good and substantial reasons why the art league should not attempt to go on."

"That is the extreme view."

"There seems to be a better, every way more desirable, outlook, and that is for the various clubs and societies, whose work brings them into alignment with the activities of the art league, to be brought together into one organization or federation, each to carry on its separate and individual work on its own lines but to be a supporting member of the federation as a whole."

"Call it a federation of clubs, if you will, discarding the old name of Kilohana Art League. Let those activities that are still the league's undisputed own retain the name, if so desired—the dramatic, art exhibition, original literary productions, etc."

After the minutes of the last meeting had been read the matter of electing new officers for the coming year was taken up. The new officers are as follows: President, Miss Frances Lawrence, who takes the place resigned by D. H. Hitchcock, who finds that the duties of president interfere too greatly with his work to allow him to serve another term; vice president, E. A. P. Newcomb; treasurer Mr. MacCaughy, secretary, Mrs. L. M. Cox. The board of trustees were re-elected for another term so that no change was made in that department. The new auditor is D. W. Anderson, while the directors at large are Mrs. Tucker and Mr. Gilmore.

Fine Job Printing, Star Office.

TO CURE MEAT
BY ELECTRICITY

Meat curing by electricity is to be given a thorough test by commissary officers, with a view to adoption of the system for the army. The process of curing meat by electricity is to apply an alternating current to the meat-curing pickle.

It is a new method successfully tried on a limited scale. In the case of ham it was shown that it was in every way equal to the highest grades of ham on the market, and with less tendency to harden after cooling.

By direction of Commissary General Sharpe the experiment is to be tried on a larger scale. The meat when treated is to be shipped to the Philippines. Standing the test in that climate will prove it to be much more desirable in every respect than the product cured in the regular way.

"Such a resource would be of the utmost importance to the subsistence department," says Gen. Sharpe, "enabling it to get properly cured meat in a very short time, and would also remove many of the objections about the high curing of both bacon and ham, which is now necessary in order to prevent those articles from spoiling in the tropics."—Washington Star.

CANNOT SIT WITH THEIR GIRLS.

"Middles" and their girls will no longer see foot ball games at the Navy Academy sitting side by side. Capt. Bowser, superintendent of the academy, has just issued an order that all midshipmen must occupy seats at games only on the grandstand reserved for members of the brigade.

A section of the grandstand has been reserved for the girls. It is near the section reserved for the midshipmen, and is labeled "relatives and friends" of midshipmen. To mitigate the situation the midshipmen will be allowed to visit the girls between the quarters of the game, but the midshipmen must return to their own stand after each intermission. The object of the order is to make more concerted the cheering given the team.—Washington Star.

TWO SISTERS MARRIED
AT THE SAME TIME

There was a double wedding last evening at the Roman Catholic Cathedral. The two brides were sisters and each couple acted as witnesses for the other. Father Valentin performed the ceremony. The Misses Virginia and Charlotte P. Nobriga, daughters of Anthony P. and Marianne Nobriga of Honolulu, were the brides. C. W. Lutz, assistant foreman of the mechanical department of The Advertiser, was wedded to Miss Virginia and William A. Silva to Miss Charlotte.

The late Ira C. Carter, whose death was announced in yesterday's Star, came from the mainland five or six years ago to become manager of the Honolulu Gas Company. He leaves a wife and one daughter, the latter engaged as stenographer in the department of public works. The funeral at three o'clock this afternoon, will be from Masonic Temple under the auspices of Hawaiian Lodge No. 21, F. & A. M., of which the deceased was a member.

80,000 TREES
TO GIVE AWAYFORESTRY BUREAU READY FOR A
VERY LARGE DISTRIBUTION OF
DESIRABLE TREES.

At yesterday's meeting of the board of agriculture and forestry, Superintendent of Forestry Hosmer reported that there were species of California redwood trees in Hawaii, and that they were doing well. Possibly the cultivation of this tree will be followed on a larger scale in the near future.

It was mentioned that the forest service of the United States government had made an allotment of \$1,000 to the Territorial Treasury. This amount is to be utilized in furthering the tree planting which was begun last year on the higher slopes of Mauna Kea and Haleakala.

It was reported that arrangements were well forward for the free distribution of trees on arbor day throughout the islands. About 80,000 are ready for distribution, and will include eucalyptus, ironwood, silk oak, Monterey cypress, golden, pink, and white showers, poinciana and Jacaranda. Each applicant will be given twenty-four trees, but no more than twelve flowering trees will be included.

AT THE THEATERS

Harry Willis, the celebrated ventriloquist and entertainer, will appear at the Novelty theater each evening of this week and at Saturday's matinee. He is a whole show himself. There will be an entire change of vaudeville features this evening.

WISE BACK AGAIN.

Hen Wise and Katie Milton will reappear at the Novelty theater this evening after their short vacation, and will have a number of new and original stunts. "Oh, You Coon," and "Cannibal Love" will be two of the song specialties, and Wise will introduce a campaign take-off entitled "When I gets to be de ruling power"—dedicated to Mayor Fern and Candidate Lane. "Honey Gall" and "Rainbow Sue" will be the song specialties of Katie Milton. She will be assisted by Miss Alapai, of the Hawaiian band. The Mascotte sisters will be there again with the double somersaults, handsprings and wiggles. They are an interesting pair.

Tomorrow, will be from Masonic Temple under the auspices of Hawaiian Lodge No. 21, F. & A. M., of which the deceased was a member.

ODD CUPS IN SARCOPHAGUS.

ST. PETERSBURG, September 27.—In an ancient sarcophagus recently unearthed in the Chersonese, in the course of archeological explorations, several cups of a form hitherto unknown have been discovered, as well as two rings with artistically engraved stones of the semi-precious order.

The grave in which the sarcophagus was found had remained absolutely untouched for ages, whereas most of the graves found nowadays show indications of having been rifled at some previous period, and very often there are traces of robbers having opened the graves in different ages.

QUAKER MEDITATIONS.

(Philadelphia Record.)
No more man can carry his head as high as a giraffe.

A woman doesn't care how hot she is if she can look cool.

Cupid apparently shoots a good many of his arrows at random.

When a man says he is feeling so so does it mean he is on the mend?

When a man loses his head unfortunately he retains possession of his tongue.

Yes, Maude, dear; bridge is played in India. Haven't you ever heard of an India rubber?

Some fellows look for work on the principle that distance lends enchantment to the view.

Perhaps the reason a society girl throws a fellow overboard is because he isn't in the swim.

There is pretty much the same difference between a theory and a fact as there is between courtship and marriage.

Tommy—Pop, does the earth go round?

Pop—Yes, my son, but it wouldn't if it was divided among all the people who want it.

Polite Pinkie—The leading lady says she is wedded to her profession.

Fanny Footlights—Well, I hope her profession won't share the fate of her three husbands.

"They say Elzera Punkinseed is a courtin' old St. Lentz's daughter," said the village gossip. "Do you 'posse the old man'll let him have her?" "Sure," replied the village wit. "Didn't you ever hear that St. Lentz gives consent?"

SHE KNEW HIM.

Mr. Tellum—Miss Writem, you've been in my office three years—I love you. Will you marry me?

Miss Writem—I'd hate to give up a steady position for an uncertainty.

WHAT TO DO.

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

G. P. DENISON, F. C. SMITH,
Superintendent. G. P. A.Chalmers "30" \$1500
Chalmers "Forty" \$2750
Licensed under Selden Patent.Automobile
Buyers
are of
Two Kinds:Those who want the best
car for the least money.Those who want the best
car regardless of price.Chalmers
MOTOR CARS

In speed contests they were given the title of
"Champions of the Year," having won more races
than any other car, even from cars twice their
price and horse power.

In hill climbing and endurance tests the same
record holds good.

The Chalmers "30" was selected pathfinder
for the 1910 Glidden Tour.

The Chalmers "30" was awarded the Glidden
Trophy in the 1910 Glidden Tour over the long-
est and most difficult route ever mapped out for
this event.

Chalmers "30"
Touring Car

THE Chalmers car is the one car that appeals
to both classes of buyers. That accounts for
its wonderful popularity.

It is easy to show the man who wants a
"cheap" car how much more value he can get in
the Chalmers by paying a little more.

It is easy to prove to the man who wants
automobile satisfaction, regardless of price, that
Chalmers cars compare favorably at every point
with the highest priced cars.

Real motor value is what you want, and real
motor value means greatest utility for least money.
The way to judge a car for value is by what it
has done rather than promises of what it will do.

Regardless of price consider what records
have been made by the

We could go into details of construction,
quality, workmanship, transmission, ignition, etc.,
but after all, the shortest, strongest and most
convincing thing we could say is "See what the
Chalmers has done. Where can you get greater
value, and what more can you ask of a car at
any price?"

The 1911 models are now on exhibition at our
salesrooms, ready for inspection and demonstra-
tion.

Associated Garage, Ltd., - - - Dealers in Motor Cars.
